BIG CROP YIELDS ON MUCK LAND IF STUDY IS GIVEN TO NEEDS

Preparation of Land Is Important Feature For Success

CREATE RESERVOIR BY DEEP PLOWING

Muck Land Excellent Base For Fertilizers If Proper Mixture Used

What proper preparation of ground and correct fertilizer will do in the field of crops from muck land was shown this week when Willard G. Smith of Pahokee gave results obtained from study of ground on the Baco Point road.

On a two-acre tract Mr. Smith had grown beans and tomatoes, two rows of beans and one row of tomatoes alternately. The amount of beans planted had covered about one and a half acres. In total, in three pickings 365 hampers of Mountfield beans were harvested, 200 pints of the first picking, 130 the second and 26 hampers of the third picking. On account of the low price for green beans the remainder of the crop will be used for feed. The bushes are still heavy with beans and young leaves are coming on, on vines three months old.

On the short two acres 57 crates of tomatoes were picked the first picking and the vines are excellent with fruit of fancy size and excellent flavor. The vines are green and show no sign of drought as do other fields in the section. The tomato plants have been grown regularly as part of Mr. Smith's idea of correct treatment of the vegetable.

Smith explained that the first part of ground was covered deeply with fruit of fancy size and excellent flavor. The vines are green and show no sign of drought as do other fields in the section. The tomato plants have been grown regularly as part of Mr. Smith's idea of correct treatment of the vegetable.

The fertilizer used was a mixture recommended by the experiment station at Belle Glade. The formula for the complete fertilizer called for 200 pounds of 40 per cent superphosphate, 250 pounds of 10-10-10, 50 pounds of manganese and 100 pounds of 44 per cent sulphate of potash. Mr. Smith added to the formula 200 pounds of superphosphate and 100 pounds of sulphate of ammonia. Next year he will leave off the sulphur and add 50 pounds more of manganese. The above formula is for one acre, but Mr. Smith believes that much larger yields of vegetables are possible from muck land as it is an ideal base for fertilizer and with sufficient moisture large amounts of fertilizer may be applied successfully. He expects to continue experiments in tomato raising and keep the vines small and to throw vigor of the plants into the fruit and heavy fertilizing for plant food.

Crowd awarded for widening Dixie Highway bridge over canal between West Palm Beach and Lake Worth.

RAINED OUT
Heavy showers Sunday afternoon halted games of the Everglades League teams. Canal Point had gone to Clewiston for a game and were rained out after the

Belle Glade was scheduled to play Shawano. Canal Point will play Shawano at that place and Belle Glade will play Clewiston at Vegetables.

Three Battling On Even Terms For First Place In The Campaign

The first announcement of the standing of the contestants in the election occupying a standing position. For the benefit of the friends of the various contestants we are announcing here for the first time the standing of all entries and accounts of the impossibility of getting in all the votes from time to time there will be included at no time the number of votes any contestant may have.

Here is how they stood at last Thursday:

Lorraine Elliott
Edith Cross
Catherine Buchanan
Mrs. W. H. Vann
Mrs. Allen Greer
Mrs. Carl Cone
Mrs. H. M. Melton
Dorothy Peoples
Mary Gantt
Mrs. Guy Stovall

Much interest has been shown and many guesses about who would be the first place when the standing was first taken. Lorraine seems to have taken the honors. The others are not far behind. Lorraine is a very capable woman, her husband is a very capable man. Lorraine has been working hard and has gotten some excellent results. Lorraine is a very capable woman, her husband is a very capable man. Lorraine has been working hard and has gotten some excellent results. Lorraine is a very capable woman, her husband is a very capable man. Lorraine has been working hard and has gotten some excellent results.

THE LEAGUE GIRLS ARE LAWMAKERS GUESTS

Attend Dinner Given By Legislators From Their Home Counties

Girls from Palm Beach county and Broward county attending the Florida State College for Women were entertained at dinner at Hotel Florida last night by Senator and Mrs. Alfred H. Waag, Representative R. C. Oiler, Representative Howard Sharp, Representative and Mrs. George L. Blount.

After dinner in the private dining room of the hotel the girls were entertained at the mansion by Governor and Mrs. Doyle E. Carlton.

The dinner was given by Governor and Mrs. Doyle E. Carlton. The girls were entertained at the mansion by Governor and Mrs. Doyle E. Carlton. The dinner was given by Governor and Mrs. Doyle E. Carlton. The girls were entertained at the mansion by Governor and Mrs. Doyle E. Carlton.

After dinner in the private dining room of the hotel the girls were entertained at the mansion by Governor and Mrs. Doyle E. Carlton.

FILL IN LOT AT PAHOKEE SCHOOL

The grounds of the Pahokee school facing Pahokee Canal Point road have been raised this week when trucks and a derrick machine were used by county forces to bring the level of the yard near that of the county road. It is understood that the work was done for the county school board.

Muck was excavated from a shallow pit on the lake front and two dump trucks hauled the material to the site where it was dumped. A crew of laborers leveled the muck and spread it over the sandy ridge. The work will be started and those roads. With the rainy season to begin shortly a fine lawn is expected to be established by the coming of school this fall.

In the course of excavating abundant material for road building the lake between Baco Point and Pahokee. County Commissioner Willard Smith of Pahokee said that the work was done for the county school board.

Tax Exempt Bill

TALLAHASSEE, May 9.—(Special to The Everglades News).—The House this forenoon voted to submit a constitutional amendment to exempt new industries from taxation for 15 years. The measure includes sugar mills and sugar cane products and tends to keep the state out of the hands of the Everglades and the Lake Okechobee region.

SEEK TO ESTABLISH ROAD STATE NET

Bill Would Designate Everglades Road As Part of State System

In a bill introduced in the Florida legislature last week by Howard Sharp and R. E. Oliver, representatives from Palm Beach county, provision is made to declare, designate and establish as a state road that certain road extending from Canal Point to Belle Glade in Palm Beach county. The bill was referred to the committee on public roads and highways.

The road named in the bill is a connection to state road No. 25. The road is a part of the state road system. The bill was referred to the committee on public roads and highways.

Other bills introduced by the Palm Beach county representatives Wednesday.

Bill No. 527 to repeal Chapter 12111 of the Laws of Florida, for the year 1927, being an act providing for the establishment of an official court reporter for the criminal court of record in and for Palm Beach county, was referred to the committee on county officials.

MUNICIPAL HEAD IS RE-ELECTED, NEW CLERK, COUNCILMEN

More Population Than Last Year But Fewer Votes Are Polled

SPOONER AND STUCKEY WINNERS FOR COUNCIL

S. W. Powell Chosen For Town Clerk; Leads Ticket In Number of Votes

One hundred and eighty-four citizens voted Tuesday in the annual town election when W. J. Larimore was re-elected mayor for another term, and two new councilmen and a clerk were elected.

The two councilmen elected Tuesday were D. Spooner and W. S. Stuckey and will serve with E. Cochran, William Bloom and Frank Glick, holdover members. Spooner, former member of the council, was not a candidate for reelection and J. E. Hawkins, the other councilman, was defeated by a vote of 85 to 34.

S. W. Powell was elected town clerk to take the place of J. R. Cochran, who resigned. Powell was elected by a vote of 85 to 34.

STATE TO MAINTAIN 20-MILE BEACH ROAD

To Repair Portions of Road And Establish Maintenance By State

County Engineer Jake Boyd, when in the Everglades this week, commented that many complaints have been received by his office relative to the condition of the stretch of road between Belle Glade and 20-mile beach where the road is in a very poor condition. The road is about 20 miles from the lake. Mr. Boyd has been in communication with Engineer R. E. Ferguson of the state road department and advised Mr. Boyd that he has ordered equipment on the job to do repairs on the road.

The state road department took over the stretch of road last week after the storm and rain had made it very bad. The road is in a very poor condition. The road is about 20 miles from the lake. Mr. Boyd has been in communication with Engineer R. E. Ferguson of the state road department and advised Mr. Boyd that he has ordered equipment on the job to do repairs on the road.

CHANGE W. U. HOURS
The Western Union office at the P. O. building at Canal Point will be open daily from 8 a. m. to 8 p. m. beginning tomorrow.

Residents on the islands off the mouth of the lake have been cleared along part of the route. No permanent repair to that road, badly damaged by the storm of last year, is possible now when farmers have hauling produce from farms along the road. Willard G. Smith, county commissioner from the Everglades (5th) district said Tuesday that he hoped county finances would permit the rebuilding of the shoulder of the road at the same time as the bridge over the lake.

SALT WATER FISH IN OKEECHOBEE

N. D. Lloyd of the Shell Fish Commission planted 500 white perch in Lake Okechobee this week. The eggs of the salt water fish were obtained from the Wichita hatchery on St. Johns river and brought to the fish hatchery on Lake Okechobee between Canal Point and Okeechobee where they hatched. The small fish were collected in cans and distributed by truck to various points. About a thousand pairs of the fish were kept in the hatchery at Chanery Bay for observation and experimentation.

Mr. Lloyd explained that the natural process in propagation of salt water fish was for the parent fish to seek fresh water to spawn, returning to tide water afterwards. When the eggs have hatched and the young are strong enough to swim, they are released in spawning season to their birthplace.

Toll Road Bill

Few F. O. B. Sales At Plantation; Slight Drop In Tomato Prices This Week

Forty-five cars of tomatoes rolled in from the state and south shore of Lake Okechobee. The 42 cars originating in the Canal Point-Pahokee territory and 3 cars from Belle Glade-Chosen station.

The decrease in volume shipped partly due to the low price and the absence of local buyers. Many buyers are hesitant about buying low-priced beans to northern markets with the change of lower prices on the part of the state.

One car of onions and one car of peppers were billed this week from the Belle Glade-Chosen station. The peppers originated at Port Mayaca and a few cars of tomatoes were shipped from that point but were billed through the Canal Point station.

OKEECHOBEE CONTROL BILL PASSED BY LEGISLATURE DRAINAGE BILL CHANGED

House In Special Night Session Passed Flood Control Bill; Measure Important To Residents Deferred, Changed

TALLAHASSEE, May 9.—The House last night passed the Okeechobee Flood Control bill and was to have taken up Everglades Drainage District bill this morning. Discussion of constitutional amendments took up the entire forenoon session, however, and the time is uncertain when the drainage district bill will be taken up. The Senate is certain to make substantial changes in the House Drainage bill. Senator Waggoner will protect the interests of Palm Beach county.

45 CARS TOMATOES ROLL FROM GLADES

Gravely Everglades Drainage District bill seems to have been killed by adverse criticism and it is reported this afternoon that a substitute bill is being drafted. The new bill is expected to have the drainage district in the present state board but provide for an advisory board of five.

The companion measures relating to flood control and to drainage of the Everglades were scheduled for final action Wednesday night by the house in special session but action was deferred on the drainage bill by the flood control bill.

The flood control bill, as passed, provided for the establishment of a board of commissioners of the Okeechobee flood control district empowered to negotiate with congress for flood control. The board would consist of five members, one from each of the five counties in the district.

The board is also empowered to establish and construct canals, levees, dikes, dams, locks, reservoirs and improve natural waterways to control and regulate waters of Lake Okechobee and the Caloosahatchee river to prevent overflows. Authorization is also given to exercise right of eminent domain for the purpose of the bill.

According to the provisions of the bill, no bonds issued by the board for the purpose of carrying out the purposes of the bill shall be sold at a figure less than 95 cents on the dollar.

One car of onions and one car of peppers were billed this week from the Belle Glade-Chosen station. The peppers originated at Port Mayaca and a few cars of tomatoes were shipped from that point but were billed through the Canal Point station.

Miss Sarah Hansen who has been teaching in High Springs is expected to return home the last of the week.

Mrs. E. R. York, who has been sick and unable to teach school for several days, is well and able to teach again.

The county is filling in the Pahokee school yard and the ditch in front of the school.

A beautiful May Day program was given Wednesday, May 1, at the Pahokee school. The first thing on the program was a greeting song by the school, followed by the crowning of the queen, Vancille Spooner. Stark

Black Cats was given by boys of the second grade. Parade of Pages was given by the girls of the 4th grade.

ancing Dolls was given by girls of second grade. Ring and Ring was given by boys of the third

A Gypsy Dance was given by the fourth and fifth grade. Colonial Belles and Beaux

given by the first grade girls. S. S. Then they had the Wind of Maypoth by the boys and girls in their beautiful costumes.

was furnished by Mrs. Wells. At the piano and Mrs. Wells

and Mrs. J. E. Hawkins are proud parents of a 10-pound

born Saturday morning at 5 o'clock in West Palm Beach. Both mother and baby are doing fine.

D. H. James of West Palm Beach is in Pahokee Tuesday.

The regular monthly business meeting of the Pahokee Woman's Club was postponed from Monday until Wednesday on account of so many members being unable to attend.

Capt. and Mrs. C. T. Rose and Mr. and Mrs. H. C. LeMaster and two children and Mrs. Ellice Iarfield, all of West Palm Beach, were visiting the Iarfields Sunday.

S. M. Lovett left Tuesday for a

ANNOUNCEMENT

Dr. ROBERT CHIROPRACTOR, will be at Pahokee, Inn, Tuesday, Thursday and Saturday after 5 p. m.

BAPTISTS TO HAVE EXCELLENT CHURCH

Place of Worship Now Being Completed Shows Trend Of Development

That the growth and development of a town is often gauged by its churches is carried out in the erection of the new Pahokee Baptist church by the congregation of that town. The place of worship now in the final stages of completion is an excellent example of the progress the town of Pahokee has made in that direction.

The building is of frame construction with stucco exterior and its dimensions are 34x70 feet. The entrance fronts on the Racoon River road and two Sunday school rooms are provided near the front entrance. The main room will seat approximately 180 people and space behind the pulpit will seat a choir of 20. Four rooms in the rear are provided for Sunday school rooms or for other uses.

The interior is wainscoted and valled with sheetrock which will be finished smoothly. The ceiling is of wood and a beamed effect is carried out. The roof of the building is flat. Mr. W. C. Taylor, pastor, estimates that it will be about three weeks before services can be held in the new church. In the meantime the congregation is using the partially repaired building damaged by the storm, which was moved to the rear of the lot and later taken down.

The pastor reports that more money must be raised for the building fund and any donations will be thankfully received. The cost of the erection of the building is \$3000 but more money is needed for furnishing.

It is understood that several churches in the upper Everglades will be built this summer after the cropping season is over.

SEEK REDUCTION ON LAKE FRONT TRACTS

Delegation Meets With Internal Improvement Board This Week

Residents on Racoon Point road in sections 23 and 24, south of Pahokee, are seeking reduction of the price of the internal improvement board Monday in an effort to secure a reduction in the price of the land in that section and close a deal of several years duration. A party composed of C. M. Todd, R. E. Smith, C. C. Hull and W. T. Gallaway, representing residents interested in the deal left the Everglades Sunday for Tallahassee and after meeting with the board returned Tuesday evening.

The deal has been pending since 1923 and state officials representing the state interests visited Pahokee and set a price of \$500 for lots and \$300 an acre for adjacent small tracts in that section fronting Lake Okechobee. The 32 lots have an approximate 180 feet of road and lake frontage and the tracts contain four and a half to five acres each. A petition had been forwarded to the improvement board asking a reduction to \$300 for the lots and \$150 an acre for the tracts in view of lowered valuation of land.

The delegation was promised that the board would reconsider the request and a final decision made soon.

The party of Everglades farmers met Howard Sharp, Palm Beach county representative from the Everglades section and had dinner with him while in Tallahassee. They also visited Everglades girl who are attending the State Woman's College.

STATE NEWS

Gulf Refining Company erecting \$135,000 service station on Dixie Highway at Fort Pierce.

Automatic dial telephones will soon be installed in Largo district.

SARASOTA—Moose Lodge dedicated quarters in Blackhawk building.

Artillery plant to be built at University of Florida at cost of approximately \$30,000.

INDIAN TOWN—Two bridges near here widened.

MAYO—Masonic Pythian building repaired.

Buists now has recognized airplane field.

Modern Plaza Cafe opened recently at Monticello.

LAKE CITY—Pan-Am Petroleum Corporation opened \$20,000 station here.

LAKE BEACH—Repairs on Ocean Boulevard will be underway in near future.

Lake City's new sewer extension system and disposal plant will cost approximately \$70,000.

JUNIOR HIGH SCHOOL NEWS

The Pahokee Junior High School team played West Palm Beach Junior High team Friday afternoon, May 3. The score was 9 to 2 in favor of West Palm Beach.

We are having the front yard filled in with muck from the canal. We are planning to have a lovely lawn.

Last Wednesday afternoon, our first school participated in a May Day program, the program consisting of songs, drills, and dances. Control Spooner made a lovely queen. There was quite a large crowd in attendance, and an enjoyable time was had by all present.

The room which the Red Cross is being given a thorough cleaning at the expense of the Red Cross; also other parts of the building are being cleaned.

The Dramatic Club is practicing a play to be presented next week. The date will be announced later.

One day last week in assembly Dr. Laiz came over and gave us a very interesting talk.

Mrs. Morgan, the home demonstration agent with 4-H club Friday afternoon.

M. L. Morgan didn't come out to meet with the boys club on account of so much work that was more important.

When the Red Cross held recently here they gave us their tent home to make a lunch room. The children have been enjoying the use of the lunch room for several days.

The Kiwanis club of West Palm Beach is giving for 30 half pint bottles of milk daily for the underprivileged children.

The photographer for the Miami Herald came yesterday (Thursday) and took several group pictures. This included one of the graduating class, one of the dramatic club, one of the Red Cross, one of the girls club, and one of the entire school.

The P. T. A. met Tuesday night and a nice meeting was reported, but they would like to have larger crowds come out.

The preschool clinic is to be held Thursday at the Women's Club building. Miss Synhorst, the nurse, and Dr. Spooner, will be in charge. This is especially for children up to six years of age.

JOES.

John: Edm. what are you doing?
John: What Lewis is doing.
John: Well, what is Lewis doing?
John: Nothing.

APPROACHING NUPITALS

Mr. and Mrs. Anton Hansen announce the engagement and approaching marriage of their daughter, Sara Jane, to Mr. Justin Jesse Trimble of Tallahassee, son of Mr. and Mrs. J. T. Trimble of Atlanta, Ga. The wedding will be solemnized some time in June.

GOOD TOMATO PRICES

The Palm Beach Gazette Association reports that good prices have been obtained for tomatoes packed and sold through the house at Canal Point. Last week, fancy tomatoes sold for \$4.99 a crate and choice for \$3.50 netting the growers \$3.25 and \$2.75 for the respective grades.

NEW NATIONWIDE TOURING SERVICE OFFERED FREE TO MOTORISTS BY STANDARD OIL

Up-to-date Information on Roads and Routes Throughout U. S. Furnished by Standard Oil Service at Louisville

Inquiries from Motorists Everywhere Given Prompt Attention

Motorists throughout the South will welcome the news that the Standard Oil Company (Kentucky) has recently installed a Touring Service at their offices in Louisville, Kentucky. This Touring Service will furnish maps and up-to-date information on road conditions and motor routes throughout the United States.

A card or letter addressed to Touring Service, Standard Oil Company, Louisville, Ky., stating where you wish to go and what information you would like to include on your motor trip will bring an immediate reply, giving you detailed information as to the shortest route and best roads to take.

From State Highway Departments and other reliable sources, the Standard Oil Touring Service receives weekly reports on the condition of roads throughout the country. Because of this fact the information it furnishes is up-to-date and authentic.

There is no charge whatever for this service, nor any obligation on any motorist requesting information. It is a service which the Standard Oil Company is glad to give.

Or, if you are planning a motor trip to the Maine Woods this Summer, and you would like to enjoy the scenic grandeur of Western North Carolina, to see the many historical points of interest in Washington, D. C.; to mingle with those enjoying the gay seaside life at Atlantic City en route—this Touring Service will send you a detailed itinerary, routing you the shortest and best way.

Or, if you would rather make a round trip to include Mammoth Cave, Kentucky; cosmopolitan Chicago; the blue lakes of Wisconsin; points of historical interest in Canada; Niagara Falls—this Touring Service will assist you in the selection of your route.

A motor trip, anywhere, any time, can be made more surely, more swiftly, and more safely, by availing yourself of the free information the Standard Oil Touring Service is ready to give you.

The Standard Oil Company (Kentucky) operates service stations throughout the States of Alabama, Florida, Georgia, Kentucky, and Mississippi.

WHO WILL WIN THESE SPECIAL OFFERS

NEWS FROM AROUND THE BIG LAKE

SOUTH BAY

May 8, 1929.

South Bay is to have a new church and extra building. The Livingston board offers the South Bay Community Methodist Church a \$3000 church on condition that the local church secure sufficient subscriptions to take care of the local expenses which have been estimated at \$1500 for this year. The board has decided to try to raise this amount in pledges in the near future. The new church will probably have a stucco finish and the present floor plan calls for an auditorium 72x36 with six Sunday school rooms, nearly all of which open into the main auditorium. This will give splendid accommodations not only for worship but also for church and school activities. The board of trustees of the Belle Glade church offered to give the old church building to the South Bay church, which together with the material from the old parsonage, and \$500 missionary money, which the board of trustees of the South Bay church receives will be used for the purpose of erecting a new hall with apartments and social center accommodations on the site of the old parsonage. This will provide a much needed plant for the church.

A Mother's Day program will be given under the auspices of the Sunday school at the school house next Sunday morning beginning at 10 o'clock. There will be several special numbers, both songs and readings given by the children and the pastor will present a theme suitable to the occasion. A special invitation is extended to all the mothers to attend this service. Let every mother wear a flower in memory of mother. For those who are unable to obtain flowers, a flower committee will be present to see that each is supplied.

Friday evening at 7:30 a motion picture program will be shown in the west room of the Hawkins building, northwest of Willis street. The public is cordially invited to attend. An offering will be taken to defray expenses.

Mrs. E. E. Forbes came on Sunday in order to enjoy the ball game between Belle Glade and Shawano and remained several days visiting her daughter, Mrs. W. H. Kase and other friends.

On Sunday school is growing rapidly. It being held at 10 o'clock morning. It is one of those things which seem to be coming. The officers for the coming year were elected recently. Mr. Cowen, superintendent, L. L. Hardy, chorister, Miss Annina, secretary, and Mrs.

Annina, Mrs. Harlow, M. D. Hardy, Mrs. Holliday, Mrs. Albert, Mrs. Tompkins, and Mrs. Grace Clark, teachers and assistants of the various classes.

The Home Demonstration Club met with Mrs. Hartline, May 2. It ladies have present. Miss Lyle who is assisting Mrs. Morgan, gave an interesting report on Dade county's Italy Day. While in Miami Miss Lyle visited "Thrift House." This house has been furnished completely at an outlay of \$120 by the home demonstration club of Dade county. Home stucco made of brick and covered with linoleum and emerald in attractive designs was the demonstration of the afternoon. There was also a drawing of canned goods presented by club members in various parts of the country and each lady present received one can of all of which were very attractive in appearance and were much appreciated. All members were urged to attend the council meeting and rally day picnic at Lake Worth on May 24th. A dress contest will be a feature of the morning program and everyone is urged to wear a dress, coat or hat that they have made.

The ball game scheduled between Belle Glade and Shawano for last Sunday afternoon had to be called off because of the rain.

Mrs. Ivan Van Horn, Mrs. H. B. Rawle and Mrs. Harry Mitchell went on a shopping expedition to West Palm Beach Tuesday, May 7. E. E. Forbes, who has been visiting here, returned to her home in West Palm Beach with them.

Mrs. John Kase, who spent his week in Miami visiting with his family and attending to various church matters returned on Saturday to be present for the regular services on Sunday.

The A. C. L. railroad is building their new station at Miami Lakes. The frame work is already up and gives every indication of being a very good solid building.

The dry docked the Hawkins restaurant Monday and obtained plenty of evidence which resulted in the proprietors being taken to West Palm Beach for a hearing. The community has been up in arms over this situation for some time and hopes that this raid will be conclusive of results and a warning to others to cease all activities along this line.

CARROT SALAD

A pleasant way to get vitamins during the fastidious and a great variety to be enjoyed. They will taste like the most delicious carrots. Serve with a dash of whipped cream or salad dressing.

BELLE GLADE—CHOSEN

BELLE GLADE

By Gerrit Koyker.

A Belle Glade Booster.

Mr. Charles Ferguson, a Chicago business man who has faith in this town and community, in fact is a 100 per cent booster, has prepared that he means what he says by making substantial investments in the town. He has just completed one of the most complete gas and oil stations in the county and more has been built more substantially than this one. The cement goes down to the rock with double steel reinforcement all through. The building is built straight down the foundation and lashed together with iron plates. No effort has been spared to make it safe against storms. The building itself has an office, a room for tires and other supplies, besides a soft drink parlor.

It is on the four corners rather five corners and must attract the attention of those driving through. The whole is fit in splendidly and is an ornament to the town and when the tourists find their way across this state on the new road, this place is fit to be one of the busiest places in the town.

Markers.

All along the way from West Palm Beach putting travelers to the Everglades Hotel and Cafe are markers just put up. They are of a very neat design and are bound to catch many eyes as they pass.

The town of Belle Glade is putting up a large sign at Twenty-mile road. It is 10x25 feet with considerable coloring and is certainly a credit to Belle Glade and those who drive past this corner will have no excuse for not knowing where to find Belle Glade.

The School.

Miss Howell, the school nurse, has just received a letter and requested all the children to be weighed. The fact was revealed that almost every one had gained some in weight. To be sure, the fact was with her to the hospital where they will receive treatment.

Edith Licherman, member of the eighth grade, here for the winter months, left for New York with her mother, Mrs. Jack Kase, on Sunday. Dean Ferguson of the ninth grade, upon an auto trip with his mother, Charles Ferguson, to Deland on Sunday, left for returning Monday evening.

Representatives from the Miami Board of Education, who were here Monday and took the pictures of the children in both grades. Now watch the children in the school house.

New Church and Parsonage.
Arrangements have been made by the board of the Methodist church and the church of the Holy Trinity, which the pastor of the two churches, Belle Glade and South Bay, will reside in the new church. The pastor, Rev. J. R. Hook, expects to move his family here as soon as school closes in Miami. The church at South Bay, realizing the importance of the new church, has given adequate support for the new church. The local board of the church has received the church has endorsed a budget of \$1,000 and offers are being made to get subscriptions to that amount. And the funds for the new church will be paid in the matter of the local expenses are satisfactory. This gives Belle Glade an unusual opportunity for efficient church work and accommodations.

Both buildings will be modern in construction, probably stucco on frame and according to present plans the church building will have an auditorium 72x36 feet with six Sunday school rooms which will open into the auditorium. The church realizes that religious education needs attention as well as other activities and worship.

The policy is to conduct this as a community church as far as it is possible. Already different denominations are represented on the board of trustees. If everybody in the community will give their moral and financial support, the matter can be put over big. Now is the time.

A special Mothers' Day service has been arranged for Sunday evening at 8 o'clock. Mr. Watson and Mrs. Frank Kelly will each sing a solo. The pastor's theme will be "Mighty Mothers."

A motion picture program will be put on Saturday evening at the community hall. An offering will be taken.

Town Council.
The council met in regular session Wednesday evening. The clerk, being out of town, the matter of passing on the usual bills was dispensed with. A communication was received relative to the matter of the merchants license. This matter is finally being cleared up and understood as to who's the retailing

merchants and who are not.

The matter of a camp site came up and the offers of Melrose, Rickel and Swango, which was made according to the state law, was promptly accepted. These gentlemen promised to have the camp site ready in less than a week. All tents will be placed in the camp.

The matter of extra deputies was left in the hands of the mayor with power to act.

The council is making arrangements for a general and a particular clean-up day. A committee was appointed to find a dumping place. When this is found, the mayor will by proclamation, set aside certain days for each resident to clean up his own premises and then a day for every one to set together and finish up what could not be done by the owners and public property.

Church Party for Young People.
The local Methodist church, through the teacher of the young people's class, Mrs. Miller, is arranging to have a church party with all the young people are invited for a get-together and to organize a young people's class. This party was looked for last night (Thursday). It was extensively advertised and many are co-operating to make it a success.

Base Ball Thursday.

Another matter of community interest and about which we can only give advance notice by mentioning that the Shawano boys and those of Belle Glade. The boys were scheduled to go to bat at 4 o'clock Thursday afternoon at Belle Glade.

Woman's Club.

The Woman's Club met in special session on Tuesday afternoon. The president, Mrs. Donald Ferguson, presided. The purpose of the meeting was to discuss food vote in favor of the school.

Arrangements were also made for a free pre-school clinic at the office of Dr. Buck. The doctor will be assisted by the Red Cross nurse, Mrs. J. R. Hook.

Bad Accident Tuesday Evening.
Remember the date, May 21. Mothers can take their babies.

Mrs. Stinger's room, the second grade, succeeded in having the most patrons present voting for their class and received the trophy for the next two weeks. The trophies were in order for new officers for the coming year. Mrs. M. L. Morris was nominated for president, Mrs. Atkins for vice-president, Mrs. M. A. Summers for secretary.

The following were appointed to the committee on recommendation: Mesdames Summers and Hayes and Rev. Hayes.

Both churches are working hard on their programs for Mother's Day. The Methodists will have a program in the new church and at the Sunday school and at evening by the Wesley class of young women. A good attendance is requested and urged.

Little Nell Hooves celebrated her third birthday with a party to which were invited all the children of the town. By the way, they laughed and played and we know they had a good time.

Mrs. Bill Groves, Mrs. Carl Parnam and Prof. Keck moved to Fort Myers Sunday.

The Licherman family, who have resided here the greater part of the winter, left for their home in New York City Sunday night. Mr. Licherman is one of the commission merchants shipping from this point for a New York firm.

H. T. Holloway of Boynton, who is in town Monday on business, Mr. Holloway has considerable property here and is doing some dredging here.

OKEELANTA

Not much has happened here in the last three weeks worth reporting to The News. A visit by County Engineer Boyd and Judge Robinson two weeks ago forestalled the improvement of the public highway between Okeelanta and South Bay. The event materialized last Friday; a road crew being put to work improving the stretches to the great satisfaction of car owners.

Dave Heberington departed for Canada the latter part of the week to be gone for several months.

John Spitzer, one of this section's pioneer settlers, drifted back a few days ago among his old friends. The journey for the Everglades proved to be the return. He is staying at the hotel with the Lovells.

Mrs. Lizzie Mothersbaugh, who spent a day here looking over the condition of their premises prior to the contemplated return to their former home, left in Tulsa on Sunday morning for Moore Haven. The rainstorm of the 5th inst. (Sunday), lasted with little intermission until midnight. The rain was accompanied part of the afternoon by hail; stones as large as pigeon

eggs, and irregular-shaped pieces of ice, fell in places. The amount of precipitation, for lack of an official gauge, could not be accurately determined.

Professor Allison of the experiment station with a crew and boat, started on a fishing trip Sunday morning. The crew consisted of: along North New River canal to a distance of 15 miles toward Fort Lauderdale; the depth of water was insufficient for further navigation.

MOORE HAVEN

By Mrs. Bill Groves.

The bridge club met last week with Mrs. Florence Ryan at her home on Avenue 1. The rooms were beautifully decorated in red roses and ferns. At the end of five progressions it was found that Mrs. Ray Williams held high score and Mrs. Sigley second. An ice cream was served by the hostess, Thelma Murray.

Mrs. Ray Williams, Mrs. Williams, Winters, Page, Klitts, Boyd, Biggs, Handlers, Drangha, Tatum, and Mrs. Sigley.

The senior play "Larks and Fakes" went over with a boom. It was a grand success from beginning to end. All characters were portrayed very clearly by home talent girls and boys. A good crowd turned out and the scores realized a sum of \$630 for their efforts. They have been requested to put it on again at a later date.

Mrs. Jesse McIntire left for her home in Des Moines, Iowa, Thursday. She has been the instructor in music in Moore Haven for the past three years but due to eye strain she was obliged to resign her position and return to her home.

Mr. Lloyd Farnum, who has been confined to his bed for the past five days is improved at this writing. The fishermen are all in on the lake now due to the closed season.

Mrs. A. J. Tanner and Mrs. C. G. Gantt were shoppers in Fort Myers Saturday.

The P. T. A. met last Friday afternoon for their regular meeting. Mrs. Stinger's room, the second grade, succeeded in having the most patrons present voting for their class and received the trophy for the next two weeks. The trophies were in order for new officers for the coming year.

Mrs. M. L. Morris was nominated for president, Mrs. Atkins for vice-president, Mrs. M. A. Summers for secretary. The following were appointed to the committee on recommendation: Mesdames Summers and Hayes and Rev. Hayes.

Both churches are working hard on their programs for Mother's Day. The Methodists will have a program in the new church and at the Sunday school and at evening by the Wesley class of young women. A good attendance is requested and urged.

The rainstorm of the 5th inst. (Sunday), lasted with little intermission until midnight. The rain was accompanied part of the afternoon by hail; stones as large as pigeon

to spend a few days with friends and relatives.

National Music Week will be observed by the Women's Club of Moore Haven May 6th to the 12th. Interesting programs are being planned featuring all types of music. These programs are in charge of the music committee composed of Mrs. D. M. Madson, chairman and Mesdames Barry, Sattle, Williams, Kase, Murren, and Ryan.

C. E. Mayson of Vero Park, has leased the garage building owned by C. C. Gannon on Avenue 1. New equipment is expected to be installed this week.

Sheriff Wiggins and Mrs. Myrtle Palmer of Palmdale were invited to give a program Tuesday night, April 30th, at Judge R. C. Vorhees. They expect to begin horseshoeing here at once.

The graduating class will have the opportunity of hearing a distinguished educator deliver their commencement address this year. Hon. W. S. Cashion, state superintendent of public instruction has accepted the invitation and will bring to the class, towns and interested school patrons an address sure to please all. The exercises will be held May 25th.

Mr. and Mrs. M. D. Golder and son of Canal Point were visitors in Moore Haven Sunday.

TASTY SAUCES

In making chicken a la King or other dishes that demand a tasty sauce, it is a good idea to finish the sauce thoroughly seasoned, long enough before serving to let the flavors blend for a while. It has a much richer flavor than when served immediately.
